* Dives will be in the order specified by your instructor. Other dives may be substituted at your instructor's discretion.

Windy Point Park on Lake Travis in Austin is the most popular dive training site. We frequent this park because of the safety restrictions (no boats, jet-skis, fishing, or pets allowed) and amenities offered (training platforms, picnic tables, air fill station, camp sites). Scuba park fees are \$15 per person per day, \$6 for an air fill, and \$10 per person if choosing to camp overnight.

Your instructor may discuss alternative dive training sites: Athens Scuba Park, Comal River, Balmorhea State Park, Cozumel, etc. Weather, temperature, visibility, student comfort, and skills are determining factors your instructor will consider.

C&J Divers Scuba does not provide transportation to the open water dive site.

All instructional materials are nonrefundable. Course refunds for non-attending students are available up to 30 days after registering minus a \$100 cancellation fee and instructional material costs.
